NATHAN TEBLUNTHUIS

Academic Appointments

University of Michigan
2023–. Postdoctoral Research Fellow, School of Information

Northwestern University
2021–2022. Postdoctoral Scholar, School of Communication

University of Washington
2015–2021. Research Assistant, Department of Communication
2019–2021. Instructor of Record, Department of Communication
2017–2019. Teaching Assistant, Department of Communication

Education

University of Washington
2017–2021. PhD, Department of Communication. Committee: Benjamin Mako Hill (Chair), Aaron Shaw, David W. McDonald, Kirsten Foot. General examinations in (1) Computer Supportive Cooperatve Work (2) Organizational Communication (3) Communication Theory. Dissertation title: "Ecology of Online Communities."
2015–2017. MA, Department of Communication. Committee: Benjamin Mako Hill (Chair), W. Lance Bennett. Thesis title: "Density Dependence without Resource Partitioning on an Online Petitioning Platform."

Whitworth University
2008–2012. Bachelors of Science in *Mathematics*.
2008–2012. Bachelors of Science in *Computer Science*.

Publications

Articles in Peer Reviewed Journals and Conference Proceedings

Teaching | **Courses**

2021, Winter. Interpersonal Media: Online Communities (COM 482). UW Department of Communication's undergraduate program. (Instructor of Record)

2019, Spring. Interpersonal Media: Online Communities (COM 482). UW Department of Communication's undergraduate program. (Instructor of Record)

2019, Winter. Organizational Communication (COM 377). UW Department of Communication's undergraduate program. (TA)

2017, Fall. Innovation Communities (COM597B – Masters Level). UW Communication Leaderships Masters in Communication in Communities and Networks program. (TA)

Directed Research Groups

I have lead or co-lead the following "Directed Research Groups" (DRGs) that students enroll in as independent studies for credit but which are organized more like small project-based classes. Typically a cohort of enrolled students meets weekly with myself and a faculty advisor as part of a group research project.

2021, Winter, Spring. Directed Research Group on qualitative analysis of online community ecology. (2 students; organized with Benjamin Mako Hill) (COM499–Undergraduate).

2022, Spring. Directed Research Group on the construction of rules and policy in Wikia wikis. (2 students; organized with Aaron Shaw) (COM499–Undergraduate).

Guest Lectures

TeBlunthuis* Nathan., Aaron Halfaker, Benjamin Mako Hill "Effects of Algorithmic Flagging on Fairness: Quasi-Experimental Evidence from Wikipedia." Research Methods (CS 499), Whitworth University. Spokane, WA, November 16, 2021.

TeBlunthuis, Nathan "Ecological Perspectives on Innovation Communities." UW Communication Leaderships Masters in Communication in Communities and Networks program. Seattle, WA, May 11, 2021.

TeBlunthuis* Nathan., Aaron Halfaker, Benjamin Mako Hill "Algorithmic flags and Identity-Based Signals in Online Community Moderation." Introduction to Data Science (CS 251), Whitworth University. Spokane, WA, May 3, 2021.

TeBlunthuis* Nathan., Aaron Halfaker, Benjamin Mako Hill "Algorithmic flags and Identity-Based Signals in Online Community Moderation." Algorithms and Society (SI 431). Ann Harbor, MI, February 18, 2021.

TeBlunthuis, Nathan "Ecology of Online Communities." UW Communication (COM 482). Seattle, WA, March 04, 2020.

TeBlunthuis, Nathan "Ecological Perspectives on Innovation Communities." UW Communication Leaderships Masters in Communication in Communities and Networks program. Seattle, WA, November 16, 2017.

Grants & Awards

Grants

2019-08-15–2022-07-31. *National Science Foundation* (IIS-1908850) for "Modeling the Ecological Dynamics of Online Organizations." Named personnel. Coauthored grant to support dissertation. (Total: $497,724; UW: $279,966)

2015–2020. *National Science Foundation* Graduate Research Fellowship Program ($108,000)

Awards

2023. *Top Paper Award* from the *Computational Methods Division* at the *73rd annual International Communication Association Conference* for "Misclassification in

Automated Content Analysis Causes Bias in Regression. Can We Fix It? Yes We Can!"

2022. *Top Paper Award* from the *Computational Methods Division* at the *72st annual International Communication Association Conference* for "Dynamics of Ecological Adaptation in Online Communities."

2022. *Faculty Award for Outstanding ResearchPh.D. Dissertation* from the *Department of Communication* at the *University of Washington* for "Ecology of Online Communities."

2021. *Top Paper Award* from the *Computational Methods Division* at the *71st annual International Communication Association Conference* for "A Community Ecology Approach for Identifying Competitive and Mutualistic Relationships Between Online Communities."

Service

Research Affiliations

2015–. Member, *Community Data Science Collective*.

2015–. Member, Design Use Build (dub), Human Computer Interaction Group, University of Washington.

Professional Organization Membership

2016–. Member, *International Communication Association*. Section Memberships: Computational Methods, Organizational Communication, Information Systems, Political Communication.

2017–. Member. *Association for Computing Machinery*. Section Memberships: SIGCHI, CSCW.

Reviewing

I am a reviewer for the following journals, conferences, grant organizations, and academic presses in communication, computational social science, and human computer interaction:

ACM Conference on Computer-supported Cooperative Work and Social Computing (CSCW), ACM Conference on Human Factors in Computing (CHI), Computers in Human Behavior, Future Internet, Journal of Communication (JOC), Journal of Quantitative Description: Digital Media (JQD:DM), International Journal of Communication (IJOC), International Communication Association Annual Meeting (ICA), National Communication Association Annual Convention (NCA), Journal of Computational Social Science (JCSS), Studies in Communication and Media (SCM), The Internaional Symposium on Open Collaboration (OpenSym), PNAS NEXUS, Journal of Internet Services and Applications (JISA), Wikimedia Research Fund, Swedish National Science Foundation

I have received "Special Recognitions for Outstanding Reviews" from ACM's SIGCHI for reviews submitted for CSCW 2019, CSCW 2020, and CSCW 2021.

Public Talks

TeBlunthuis, Nathan, Tilman Bayer, and Olga Vasileva. "Dwelling on Wikipedia: Investigating Time Spent by Global encyclopedia Readers." Wikimania. Stockholm, Sweden, August 17 2019.

TeBlunthuis, Nathan, "Personal Story Telling and Grassroots Recruitment", Scholars Studio, University of Washington, Seattle, Washington, February 16 2017

Workshops & Seminars

Spring & Fall; 2015, Spring & Fall. 2016, Spring & Winter 2020. Mentor, Community Data Science Workshops, Department of Communication and eScience Institute, University of Washington.

Fall. 2016, Spring & Winter 2020. Lecturer, Community Data Science Workshops, Department of Communication and eScience Institute, University of Washington.

Other Service Activities

2021–. *WikiEducation Foundation* Faculty Mentor.

Industrial & Nonprofit Experience

2023 *Wiki Education Foundation*, Data Science Consultant: Visualizing Impact. San Francisco, California, United States. Technical Advisor for Data Science Projects to Monitor Program Impacts on Wikipedia Content.

2019 *Wikimedia Foundation*, Research Intern: Scoring Team. San Francisco, California, United States. Lead original research project investigating algorithmic bias and flagging systems in online platform governance published in CSCW 2021.

2018 *Wikimedia Foundation*, Data Analyst Consultant: Growth Team. San Francisco, California, United States. Designed reading time metrics for Wikipedia and lead original research project published in OpenSym 2019.

2012–2014. *Microsoft Corporation*, Software Develement Engineer: Bing Multimedia UX. Bellevue, Washington. Built distributed back-end systems to drive multimedia engagement features on Bing.com. Trained search recommendation algorithms.

2008–2010. *Pacific Northwest National Laboratory*, Technical Intern: Nuclear waste vitrification. Richland, Washington. Developed method for measuring sample volume and expansion during melting in high-temperature furnace.

Journalism and Legal Research

Contributed data collection and analysis as a source to "Are bots manipulating the 2020 conversation? Heres whats changed since 2016." Washington Post. November 20, 2019.

Contributed data collection, analysis and visualization to forthcoming article with journalist Alex Lubben.

Research and statistical consulting for a major lawsuit (details are private).
